can keep you safe.

Pair of shields to fit single front seats of vehicle. Front and rear view.

Pair of shields to fit single driver's seat with double front passenger seat. Front and rear view.

Registered Patent No. GB2586167

A handful of customer quotes from hundreds on our files.....

"The shields you supplied worked just how I needed them to. They are a great design and have been very useful for us as an Ambulance company to still be able to pick up patients safely."

DS Director of Fleet Services, Essex.

"Having used your shields for over a month I am just writing to say how pleased we are with them. They are easy to fit, do a very good job and allow us to take our son out in the car with confidence. This has made a great improvement to all of our lives." SJB Cumbria

"Thanks for all your help. The shields were really easy to fit and are perfect for what we need." RN St. Albans

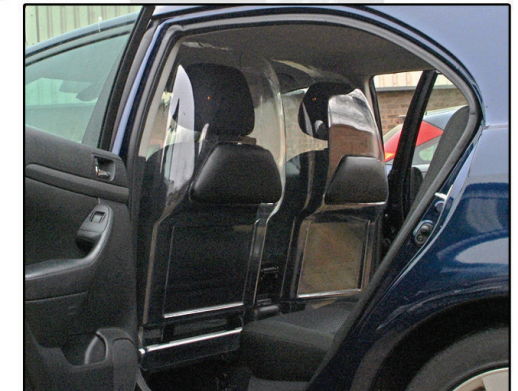

We will be happy to recommend your shields to others." SE Norwich.

"We have received your shields today and they fit very well. Thank you." HT Blackpool.

"I took delivery of 'A's shields on Tuesday and fitted them myself very quickly – am very impressed by just how easy they were to put in the car. I am absolutely delighted and it now keep's 'A's carers safe." SW Grantham, Lincs.

Multi purpose vehicle

Saloon type vehicle

driver **SHIELDS** are made from tough clear polycarbonate or PETg plastic providing excellent protection against attack or interference.
